**PURCHASE PRICE** \$2,399 (plus tax & shipping) Includes: D.I. REVOLUTION™, two (2) rechargeable 18V Lithium-Ion batteries, optional side handle, user guide, battery charger, storage/shipping case, and extension shaft for standup operations.

**Model Number** 70520

## ABOUT D.I. ROOF SEAMERS

D.I. Roof Seamers is Nucor Building Systems' preferred supplier for Roof Seamers and hand tools. With award-winning quality programs and a massive inventory, D.I. provides tools directly to you on the jobsite.

## LEARN MORE

Visit [www.nbsseamerinfo.com](http://www.nbsseamerinfo.com) for more information.

The D.I. REVOLUTION™ performs perfect, consistent crimps at the push of a button. This battery-powered crimper eliminates your need for an electric roof seamer on small projects, greatly reduces the manual labor required on the large ones, and is designed to make fast work of crimping and securing your project under budget and ahead of schedule.

The D.I. REVOLUTION™ completes a Nucor Roll Lock™ crimp on a Nucor CFR™ roof. If used continuously, it forms a finished Nucor Vise Lock® seam.

## PRODUCT FEATURES:

- 19" extension shaft allows tool to be used while standing up. (Total height 34.25")
- Variable-speed trigger.
- Built-in LED work light for low-light situations.
- Over 650 in-lbs of torque for thick materials.
- More than 270 crimps per battery charge with continuous use\*.

Contact your local component technician to purchase this product or your NBS representative for more information.

*\* This is under extreme conditions with very heavy gauge metal, oversized clips, additional layers of material and continuous use without time for battery to recover. Average use can expect as much as 700+ crimps per battery charge.*
